Skills

- HTML
- CSS / Bootstrap
- Javascript / JQuery / Moment
- Third Party APIs

Projects

Planmark

- An event searching application that uses Ticketmaster and OpenWeather APIs to display local weather and events
- Uses HTML, CSS, Bootstrap, Javascript and Moment
- <https://mcktayl.github.io/Event-Search/>

Weather Dashboard

- An application that will display weather for a searched city and retain a list of previously searched cities for easy comparison
- Uses HTML, CSS, Bootstrap, Javascript, JQuery, and Moment
- <https://mcktayl.github.io/weather-app/>

Coding Quiz

- A timed quiz application with pre-written questions and answers that will be randomly presented to the user
- Uses HTML, CSS, and Javascript
- <https://mcktal.github.io/code-quiz/>
